## 1. NATURE OF OPERATIONS

Artemis Gold Inc. ("**Artemis Gold**" or the "**Company**") was incorporated under the Business Corporations Act (British Columbia) on January 10, 2019. The Company is a development-stage company focused on the development of the Blackwater Gold Mine ("**Blackwater**" or the "**Blackwater Mine**") in central British Columbia. The Company's common shares are traded on the TSX Venture Exchange ("**TSXV**") under the symbol "ARTG".

The Company operates a single reportable segment, being the exploration and development of mineral properties. All of the Company's non-current assets are located in Canada.

The Company maintains its head office at 595 Burrard Street, Suite 3083, Vancouver, B.C., Canada. The Company's registered and records office is located at 1133 Melville Street, Suite 3500, Vancouver, B.C., Canada.

## 2. BASIS OF PREPARATION

### Basis of preparation and measurement

These unaudited condensed consolidated interim financial statements ("**Interim Financial Statements**") have been prepared in accordance with IAS 34, *Interim Financial Reporting* ("**IAS 34**"). They do not include all of the information and notes required by IFRS Accounting Standards as issued by the International Accounting Standards Board ("**IFRS**") for full annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements as at and for the years ended December 31, 2023 and 2022 ("**Annual Financial Statements**"). The accounting policies applied in the preparation of these Interim Financial Statements are consistent with those applied and disclosed in the Annual Financial Statements except as disclosed below related to new accounting standards.

These Interim Financial Statements have been prepared on a historical cost basis, except for certain financial instruments which have been measured at fair value. In addition, these Interim Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information. These Interim Financial Statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries. References to "**US\$**" are for United States Dollars. Certain prior period amounts have been reclassified to conform to the presentation in the current period.

These Interim Financial Statements were approved by the board of directors on November 6, 2024.

### Basis of consolidation

These Interim Financial Statements include the accounts of the Company and its wholly-owned subsidiaries, BW Gold Ltd. and 1337890 B.C. Ltd., all of which are domiciled in Canada. All inter-company balances, transactions, income and expenses have been eliminated upon consolidation.

### Adoption of new accounting standards

IAS 1, *Presentation of Financial Statements* ("**IAS 1**"): In October 2022, the IASB issued amendments to IAS 1 titled Non-current Liabilities with Covenants. These amendments sought to improve the information that an entity provides when its right to defer settlement of a liability is subject to compliance with covenants within 12 months after the reporting period. These amendments to IAS 1 override but incorporate the previous amendments, Classification of Debt as Current or Non-current, issued in January 2020, which clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities should be classified as non-current if a company has a substantive right to defer settlement for at least 12 months at the end of the reporting period. Effective January 1, 2024, the Company adopted these amendments, which did not have a material effect on its Interim Financial Statements.

### 2. BASIS OF PREPARATION (CONTINUED)

#### Accounting standards issued but not yet adopted

IFRS 18, *Presentation and Disclosure in Financial Statements* (“IFRS 18”): In April 2024, the IASB issued IFRS 18, which will replace IAS 1. IFRS 18 is effective for periods beginning on or after January 1, 2027, with early adoption permitted. IFRS 18 will require defined categories and subtotals in the statement of profit or loss, require disclosure about management-defined performance measures, and adds new principles for aggregation and disaggregation of information. The Company is assessing the impact of this standard on its disclosures.

### 3. USE OF ESTIMATES AND JUDGMENTS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable in the circumstances. Uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The Company’s interim results are not necessarily indicative of its results for a full year. The significant accounting policy judgments and areas of estimation uncertainty that applied in the preparation of these Interim Financial Statements are consistent with those applied and disclosed in Note 4 of the Annual Financial Statements, except as noted below.

#### Liquidity

As at September 30, 2024, the Company had a working capital deficit of \$146.1 million. At that date, the Company had additional sources of liquidity in the form of a \$40 million COF, along with an additional \$3.8 million of capitalized interest available under the PLF. The Company also executed an agreement on October 9, 2024, with one of its existing lenders to provide additional stand-by debt funding of up to \$65 million, plus up to \$10 million in capitalized interest and fees.

Included in the working capital deficit are current liabilities of approximately \$75 million which are either non-cash in nature or not due within at least six months of the period-end. The Company is targeting first gold pour from its Blackwater Mine in late Q4 2024, prior to the due dates of those current liabilities, and expects that such current liabilities will be funded from the expected positive cash flows from operations.

The Company expects that its available liquidity as at September 30, 2024 and the funding obtained subsequently, along with future cash flows associated with mining operations will provide sufficient resources to fund the initial construction of Blackwater and meet its contractual obligations for the following 12 months. Subsequent to September 30, 2024, the Company drew the \$40 million COF and \$35 million of the stand-by debt facility (Note 16).

| <b>Balance, September 30, 2024</b>     | <b>7,289,208</b>                 |

As at September 30, 2024, the Company held 50,701,138 common shares of VLC (or 26% of VLC's issued and outstanding common shares) with a fair market value of \$7.9 million (December 31, 2023 - 50,701,138 VLC shares, or 26% of VLC's issued and outstanding common shares, at a fair value of \$5.6 million).

### 5. RESTRICTED CASH

As at September 30, 2024, the Company recorded a total of \$21.9 million (December 31, 2023 - \$15.1 million) of restricted cash on the statements of financial position with respect to cash collateral provided to support surety bonds related to reclamation and other permitting requirements, fish habitat compensation plans and mining effluent requirements, construction holdbacks and other collateral provided in regard to financial security in support of general corporate accounts.

The current portion of restricted cash is comprised of amounts expected to be released from construction holdbacks, as well as the expected refund of a portion of cash collateral associated with previously issued reclamation and environmental security bonds following the commencement of production.

The following table summarizes restricted cash as follows:

|  | September 30, 2024 |                    | December 31, 2023 |             |

(1) Mineral property primarily includes expenditures related to technical services, environmental regulatory and compliance, capitalized interest, accretion of variable consideration payable, accretion of deferred revenue, discounted future reclamation costs (Note 10), capitalized stock-based compensation, capitalized depreciation and capitalized interest on lease liabilities.

(2) Construction in Progress consists of costs associated with the Blackwater Mine, which includes the engineering, procurement and construction ("EPC") contract for the processing plant.

(3) Right-of-use assets consist of the initial construction and mining fleet related to the Blackwater Mine, as well as corporate office leases.

(4) "Other" includes furniture, buildings and land.

Total depreciation recognized during the three and nine months ended September 30, 2024 was \$4.6 million and \$9.5 million, respectively (three and nine months ended September 30, 2023 - \$0.8 million and \$1.4 million, respectively), of which \$0.2 million and \$0.5 million, respectively, was expensed in the condensed consolidated interim statements of loss and comprehensive loss (three and nine months ended September 30, 2023 - \$0.2 and \$0.5 million, respectively). The remaining depreciation charges were capitalized to mineral property.

### 6. MINERAL PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

The amount of capitalized interest included in mineral property during the nine months ended September 30, 2024 was \$42.5 million (nine months ended September 30, 2023 - \$12.4 million). The amounts of capitalized interest include the accretion of variable consideration payable and deferred revenue, as well as commitment fees and interest expense associated with the PLF and mobile equipment master lease agreement (“MLA”). Capitalized interest included in mineral property during the nine months ended September 30, 2024 is net of \$3.7 million of interest income associated with the cash proceeds from the PLF (nine months ended September 30, 2023 - \$nil).

The additions to mineral property during the nine months ended September 30, 2024 includes \$18.6 million in changes in the asset retirement obligation estimate (nine months ended September 30, 2023 - \$7.0 million).

### 7. LEASE LIABILITIES

The Company’s lease liabilities are primarily related to construction equipment required for the execution of the owner-performed scope of major works construction activities and initial mining fleet for operations at the Blackwater Mine. The Company’s lease liabilities have interest rates that vary between 6.0% to 9.5%.

The following table summarizes the changes in lease liabilities:

|                            | September 30, 2024 | December 31, 2023 |
|----------------------------|--------------------|-------------------|

| <b>Non-current portion</b> | <b>99,542,521</b>  | <b>19,967,754</b> |

Total interest incurred on lease liabilities during the three and nine months ended September 30, 2024 was \$1.2 million and \$2.1 million, respectively (three and nine months ended September 30, 2023 - \$0.1 million), which was primarily capitalized to mineral property.

Future scheduled lease payments, comprising principal and interest are disclosed in Note 14.

### 8. VARIABLE CONSIDERATION PAYABLE

The Company's variable consideration payable is associated with the gold stream arrangement ("Gold Stream") that the Company entered into as part of the consideration associated with the acquisition of Blackwater. The Gold Stream also included a delayed construction/production penalty clause (the "Delay Penalty Clause") whereby, in the event the Blackwater mineral processing facility had not achieved an average of at least 80% of Phase 1 nameplate capacity (as per the definition in the 2021 feasibility study) for a period of 60 days prior to each of August 21, 2027, 2028 and 2029, the Company would be required to make penalty payments to the streaming company in the amount of \$28 million (the "Penalty Payment") per annual deadline missed, up to a maximum of \$84 million. Although the Company does not control all of the events which may result in the payment of the Penalty Payments, it was considered likely that the minimum benefit to the streaming company, either as a result of the Delay Penalty Clause or through future sales at a discount to the spot price, would be the sum of the Penalty Payments. Accordingly, the Company recorded a liability for variable consideration payable upon the acquisition of Blackwater. The initial fair value of the financial liability was determined using a discount rate of 12.5%.

If the Blackwater mineral processing facility achieves an average of at least 80% of Phase 1 nameplate capacity (as per the definition in the 2021 feasibility study) for a period of 60 days prior to August 21, 2027, the liability will be de-recognized with a corresponding reduction to mineral property, plant and equipment, representing the accretion expense capitalized to mineral property, plant and equipment since initial recognition of the liability.

The following table summarizes the changes in variable consideration payable:

|  | Carrying amount<br>\$ |
|--|-----------------------|
| <b>Balance, January 1, 2023</b>  | <b>41,709,665</b>     |

### 9. LONG-TERM DEBT

The Company executed the Project Loan Facility ("PLF") with a syndicate of lenders on February 24, 2023, in respect of a \$360 million PLF plus up to \$25 million of capitalized interest, to fund a significant component of the estimated construction costs of the development of the Blackwater Mine. The PLF also provides for a \$40 million stand-by cost overrun facility ("COF").

### 9. LONG-TERM DEBT (CONTINUED)

The following table summarizes the changes in long-term debt:

|  | \$                 |
|--|--------------------|
| <b>Balance, January 1, 2024</b>              | 143,497,758        |
| Proceeds received on drawdown of PLF         | 210,000,000        |
| Reclassification of deferred financing costs | (10,567,031)       |
| Amortization of deferred financing costs     | 1,687,690          |
| Capitalized and accrued interest             | 20,585,123         |
| <b>Balance, September 30, 2024</b>           | <b>365,203,540</b> |

On March 25 and June 21, 2024, the Company drew a further \$130 million and \$80 million, respectively under the PLF.

The PLF carried an interest rate at the Canadian Dealer Offered Rate ("CDOR"), plus a margin of 4.75% pre-project completion, reducing to 4.25% post-completion (the "Margin"). Any amounts drawn on the COF will carry the above pricing plus an additional 2%. CDOR ceased publication in June 2024, at which point the Company and its lenders transitioned to the Canadian Overnight Repo Rate Average ("CORRA"). Following the conversion to CORRA, the PLF carries a rate of CORRA plus 0.32138% per annum plus the Margin.

As at September 30, 2024, the entire balance of \$360 million had been drawn and \$3.8 million of capitalized interest remained available under the PLF.

As at September 30, 2024, no amounts were drawn under the COF (Note 16).

As at September 30, 2024, the Company was in compliance with its debt covenants.

Aggregate future minimum repayments, including both the principal amount of drawings and capitalized interest, are disclosed in Note 14.

### 10. ASSET RETIREMENT OBLIGATION

The following table summarizes the changes to the asset retirement obligation:

|                                    | Carrying amount<br>\$ |
|------------------------------------|-----------------------|
| <b>Balance, January 1, 2023</b>    | <b>11,292,855</b>     |
| Accretion expense                  | 307,994               |
| Change in obligation estimate      | 12,603,433            |
| <b>Balance, December 31, 2023</b>  | <b>24,204,282</b>     |
| Accretion expense                  | 298,659               |
| Change in obligation estimate      | 18,568,984            |
| <b>Balance, September 30, 2024</b> | <b>43,071,925</b>     |
| Less: current portion              | (1,256,572)           |
| <b>Non-current portion</b>         | <b>41,815,353</b>     |

As at September 30, 2024, the assumptions applied in estimating the asset retirement obligation related to the inflation rate and discount rate were 2.05% and 3.13% per annum (as at December 31, 2023 1.99% and 3.02% per annum), respectively. As at September 30, 2024 and December 31, 2023, the Company's estimate of the undiscounted future cash flows related to the asset retirement obligation was \$55.7 million and \$30.8 million, respectively (Note 14).

### 11. DEFERRED REVENUE

The Company's deferred revenue is associated with the Silver Stream Precious Metals Purchase Agreement ("Silver Stream") and the separate amendment of the Gold Stream ("Gold Stream Amendment") that the Company entered into to fund the development and construction of the Blackwater Mine. The following table summarizes the changes in deferred revenue:

|                                    | Silver Stream<br>\$ | Gold Stream<br>Amendment<br>\$ | Total<br>\$        |
|------------------------------------|---------------------|--------------------------------|--------------------|
| <b>Balance, January 1, 2023</b>    | -                   | -                              | -                  |
| Deposits                           | 189,763,200         | 53,769,430                     | <b>243,532,630</b> |
| Accretion                          | 5,507,112           | 1,258,887                      | <b>6,765,999</b>   |
| <b>Balance, December 31, 2023</b>  | <b>195,270,312</b>  | <b>55,028,317</b>              | <b>250,298,629</b> |
| Accretion                          | 11,602,795          | 2,661,404                      | <b>14,264,199</b>  |
| <b>Balance, September 30, 2024</b> | <b>206,873,107</b>  | <b>57,689,721</b>              | <b>264,562,828</b> |
| Less: current portion              | (9,088,229)         | -                              | (9,088,229)        |
| <b>Non-current portion</b>         | <b>197,784,878</b>  | <b>57,689,721</b>              | <b>255,474,599</b> |

The upfront cash deposits received under the Silver Stream and Gold Stream Amendment are accounted for as deferred revenue with a significant financing component, with the related accretion expense being capitalized to mineral property until the Blackwater Mine is operating in a manner intended by management. The deferred revenue associated with the Silver Stream and Gold Stream Amendment is being accreted to reflect the significant financing component at a pre-tax rate of 8% and 6.5%, respectively, being the estimated rate implicit to the Silver Stream and Gold Stream Amendment. The current portion of deferred revenue related to the Silver Stream is based on an estimate of silver ounce production from Blackwater for the next twelve months. As the deliveries under the Gold Stream Amendment are not expected to begin until 2034, the entire amount of the deferred revenue related to the Gold Stream Amendment is recorded as non-current as of September 30, 2024.

### 12. EQUITY

#### a) Stock options

The Company may grant stock options to its directors, executive officers, employees and consultants to acquire a maximum number of common shares equal to 10% of the total issued and outstanding common shares of the Company exercisable for a period of up to 10 years from the date of grant, subject to vesting conditions.

The Company uses the Black Scholes option pricing model to determine the fair value of stock options granted. As at September 30, 2024, the Company had the following stock options outstanding and exercisable:

|   | Number of stock options<br># | Weighted-average exercise price<br>\$ |
|---|------------------------------|---------------------------------------|
| <b>Outstanding – January 1, 2023</b>    | <b>10,309,600</b>            | <b>4.67</b>                           |

#### b) Restricted Share Units

The Company adopted a cash-settled Share Unit Plan in early 2023 (“**Share Unit Plan**”). Recipients of Restricted Share Units (“**RSUs**”) issued under the Share Unit Plan will receive a cash settlement in the amount equal to the market price of the RSUs on their vesting dates, with such amounts to be paid within 30 days of the respective vesting dates. On August 10, 2023, the Company adopted the Omnibus Incentive Plan (“**Omnibus Plan**”). Once RSUs issued under the Omnibus Plan vest, settlement shall be made by the issuance of one Common Share for each RSU being settled, a cash payment equal to the market price on the vesting date of the RSUs being settled in cash, or a combination of shares and cash, all as determined by the Board in its sole discretion.

On February 23, 2024, the Company granted 503,500 RSUs under the Omnibus Plan to non-independent directors, officers and employees of the Company.

Share-based payments arising from RSUs issued under the Share Unit Plan that were recognized during the three and nine months ended September 30, 2024 totalled \$1.1 million and \$2.7 million, respectively (three and nine months ended September 30, 2023 - \$0.6 million and \$1.1 million, respectively), of which \$0.5 million and \$1.5 million was expensed during the three and nine months ended September 30, 2024, respectively, in the condensed consolidated interim statements of loss and comprehensive loss (three and nine months ended September 30, 2023 - \$0.3 million and \$0.6 million, respectively), and the remainder was capitalized to mineral property.

### 12. EQUITY (CONTINUED)

#### b) Restricted Share Units (continued)

Share-based payments arising from RSUs issued under the Omnibus Plan that were recognized during the three and nine months ended September 30, 2024 totalled \$0.6 million and \$1.3 million, respectively (three and nine months ended September 30, 2023 - \$nil), of which \$0.2 million and \$0.6 million was expensed during the three and nine months ended September 30, 2024, in the condensed consolidated interim statements of loss and comprehensive loss (three and nine months ended September 30, 2023 - \$nil), and the remainder was capitalized to mineral property.

#### c) Deferred Share Units

Under the Share Unit Plan, deferred share units (“DSUs”) may be granted to non-executive directors of the Company from time to time. Vested DSUs issued under the Share Unit Plan are to be settled in a cash amount equal to the market price of the vested DSUs on the date that the person ceases to be a director of the Company, with the settlement to occur within 30 days of the person ceasing to be a director of the Company. Vested DSUs issued under the Omnibus Plan may be redeemed by non-executive directors once they cease to be a director of the Company by providing a redemption notice to the Company specifying the redemption date which will be at least three months following the date that the person ceased to be a non-executive director, but no later than December 15<sup>th</sup> of the year following which the person ceased to be a non-executive director. The former non-executive director would be entitled to one common share for each vested DSU under the Omnibus Plan, or a cash payment equal to the market value of such vested DSUs on the redemption date, or a combination of shares and cash, all as determined by the Board in its sole discretion.

On February 23, 2024 the Company granted 33,000 DSUs under the Omnibus Plan to directors of the Company.

Share-based payments arising from DSUs issued under the Share Unit Plan and Omnibus Plan that were recognized during the three and nine months ended September 30, 2024 totalled \$0.3 million and \$0.6 million, respectively (three and nine months ended September 30, 2023 - \$0.1 million), of which the entire amount was expensed during the three and nine months ended September 30, 2024 and 2023 in the condensed consolidated interim statements of loss and comprehensive loss.

#### d) Share purchase warrants

All share purchase warrants have been exercised or had expired on August 27, 2024. A summary of the changes in share purchase warrants is as follows:

### 13. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT COMPENSATION

#### a) Key management compensation

The Company transacts with key management personnel, who have authority and responsibility to plan, direct and control the activities of the Company and receive compensation for services rendered in that capacity. Amounts paid to related parties were incurred in the normal course of business. Salaries, benefits, consulting fees and director's fees are recorded on a historical cost basis while share-based compensation is measured at the fair value of the instruments issued, with the expense recognized over the relevant vesting periods. Key management for the three and nine months ended September 30, 2024 and 2023 consists of the Company's Chief Executive Officer, President and Chief Operating Officer, Chief Financial Officer, Chief ESG Officer, and directors. A portion of key management compensation is capitalized, depending on the nature of the individuals' responsibilities.

Compensation awarded to key management for the three and nine months ended September 30, 2024 and 2023 was:

|                       | For the three<br>months ended<br>September 30, 2024<br>\$ | For the three<br>months ended<br>September 30, 2023<br>\$ | For the nine<br>months ended<br>September 30, 2024<br>\$ | For the nine<br>months ended<br>September 30, 2023<br>\$ |
|-----------------------|---|---|--|--|
| Salaries and benefits | 544,716   | 419,668   | 1,750,415  | 1,519,067  |
| Consulting fees       | 359,972   | 327,321   | 1,245,243  | 1,112,150  |
| Director fees         | 140,900   | 148,605   | 415,140  | 436,493  |
| Share-based payments  | 2,804,413   | 884,306   | 6,629,269  | 2,492,119  |
|                       | 3,850,001   | 1,779,900   | 10,040,067   | 5,559,829  |

As at September 30, 2024, the Company did not owe any unpaid salaries, benefits or consulting fees to the Company's Chief Executive Officer, President and Chief Operating Officer, Chief Financial Officer, Chief ESG Officer or to directors (as at December 31, 2023 - \$nil).

### 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash and cash equivalents, receivables, accounts payable and accrued liabilities, long-term debt, variable consideration payable, zero cost gold collars ("**Gold Collars**"), and the embedded derivative asset related to the partial buy-back option of the Silver Stream. All financial instruments are initially recorded at fair value and designated as follows: cash and cash equivalents and receivables are classified as financial assets at amortized cost. The embedded derivative asset related to the partial buy-back option of the Silver Stream is classified as a financial asset at fair value through profit or loss. Accounts payable, variable consideration payable and long-term debt are classified as financial liabilities and are measured at amortized cost. The Gold Collars are a derivative financial instrument measured at fair value through profit or loss that is not designated for hedge accounting.

#### Financial instrument risk exposure

##### Credit risk

Credit risk arises from the potential for non-performance by counterparties of contractual financial obligations. The Company's credit risk is primarily attributable to cash and cash equivalents. As at September 30, 2024, the Company has cash on deposit with several large Canadian financial institutions to counteract concentration risk. Management believes the risk of loss with respect to cash and cash equivalents to be remote.

Contractual commitments related to long-term debt represent required repayments of principal, capitalized interest and interest payments on the PLF. Contractual commitments related to lease liabilities represent future repayments of principal and interest on the construction and mining fleet leased under the MLA, as well as the corporate office leases. The Company incurs commitment fees of 1.0% on the remaining amounts available on the MLA, payable quarterly up until the earlier of December 31, 2024 or when all of the construction and mining fleet have been fully financed. The remaining undrawn amount available under the MLA was \$35.3 million as at September 30, 2024.

### 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

#### Market risk

Market risk is the risk that the fair market value of the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, and equity and commodity prices, and currency rates.

#### i. Interest rate risk

Interest rate risk is the risk that the future cash flows from a financial instrument will fluctuate due to changes in market interest rates. The Company holds its cash in bank accounts that earn variable interest rates. The Company's other current financial assets and current financial liabilities are generally not exposed to interest rate risk because of their short-term nature. Drawdowns under the Company's PLF and deliveries of leased equipment under the Company's MLA are currently at an interest rate benchmarked to CORRA which may expose the Company to interest rate risk. Based on amounts outstanding as at September 30, 2024, a 1% change in interest rates would result in a change of approximately \$4.2 million in interest incurred on an annualized basis.

#### ii. Price risk

In order to mitigate gold price risk, and to satisfy one of the requirements to utilize the PLF (Note 9), the Company entered into gold forward sales contracts ("**Gold Forwards**") during the year ended December 31, 2023. As of September 30, 2024, the Company has committed to delivering 190,000 gold ounces at a weighted average price of \$2,851/ounce between March 2025 and December 2027. As Blackwater is in development, there were no deliveries made as at September 30, 2024. The Company determined the Gold Forwards met the criteria of the "own use" exemption in IFRS 9, *Financial Instruments*, and therefore fell outside the scope of financial instrument accounting.

The Company's future cash flow from mining operations is subject to commodity price risk from fluctuations in the market for prices for gold and silver. The Company may enter commodity hedging contracts from time to time to reduce its exposure to fluctuations in spot commodity prices.

The Company has entered into Gold Collars to further reduce the risk associated with future fluctuations of the price of gold. The Gold Collars represent European-style put and call options that are generally settled in cash as they expire at the end of each settlement date. These Gold Collars are not designated as hedging instruments. Changes in the fair value of the Gold Collars are recorded in other income and expense. The Company has entered into Gold Collars on 30,000 gold ounces with settlement dates spread between December 2024 and February 2025 at a weighted average put price of \$2,600/ounce and weighted average call price of \$3,353/ounce. As at September 30, 2024, the Company has recognized a derivative liability of \$8.5 million (December 31, 2023 - \$nil) related to the Gold Collars, and during the three and nine months ended September 30, 2024, has recognized an expense of \$5.6 million and \$8.5 million, respectively, recognized as a change in fair value in the statements of loss and comprehensive loss.

#### ii. Currency risk

The functional currency of the Company is the Canadian dollar. Currency transaction risk and currency translation risk is the risk that fluctuations of the Canadian dollar in relation to other currencies may impact the fair value of financial assets or liabilities. As of September 30, 2024, the Company had US dollar denominated cash deposits of US\$0.1 million. There were no other significant financial assets or liabilities that were subject to currency translation risk.

### 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

#### Fair value

A three-level hierarchy for fair value measurements exists based upon the significance of inputs used in making fair value measurements:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – Inputs for the asset or liability that are not based on observable market data.

As at September 30, 2024, the carrying value of the Company's cash and cash equivalents, restricted cash, receivables, as well as accounts payable approximate their fair values due to their short-term nature. The face value of the Company's long-term debt also approximates its fair value. The fair value of variable consideration payable (Note 8) is estimated to be \$48.0 million, which was determined using a discounted cashflow approach with an estimated market interest rate applied. The fair value of the Company's equity investment in VLC is disclosed in Note 4. The fair value of the embedded derivative asset related to the partial buy-back option of the Silver Stream (Note 11) is estimated to be \$nil and was determined by using a discounted cash flow approach with an estimated market silver price applied. The fair value of the Gold Collars (Note 14) is estimated to be a liability of \$8.5 million and was determined based on forward price curves for gold denominated in Canadian dollars.

Fair value is based on available public market information or, when such information is not available, estimated using present value or option pricing techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate credit risk.

### 15. CONTINGENCIES

The Company may become subject to legal proceedings, claims, regulatory investigations and other proceedings in the ordinary course of its business, including the action(s) described below.

The Company is currently involved in a dispute with one of its contractors, which may result in mediation, arbitration, or litigation. Such proceedings, if it occurs, may be ongoing for an extended period of time. The Company does not currently expect that the matter will result in a material net liability and have not raised any provisions in relation thereto. The Company will continually monitor and re-assess the likelihood and magnitude of any net liability associated with these proceedings.

### 16. SUBSEQUENT EVENTS

- a) In October 2024, the Company drew \$40 million under the COF (Note 9).
- b) In October 2024, the Company executed an agreement with one of its existing lenders to provide additional stand-by debt funding of up to \$65 million, plus up to \$10 million in capitalized interest and fees, on a subordinated and unsecured basis. This funding is in addition to the Company's existing PLF and COF (Note 9). The stand-by facility is repayable within 12 months, but otherwise has the same commercial terms as the COF announced on March 1, 2023. On October 21, 2024, the Company drew \$35 million of the available \$65 million stand-by facility.
