Supplemental cash flow information (Note 17)

1. NATURE OF OPERATIONS

Artemis Gold Inc. ("Artemis Gold" or the "Company") was incorporated under the Business Corporations Act (British Columbia) on January 10, 2019. The Company is a gold and silver producer focused on the operation and further development of its flagship asset, the Blackwater Gold Mine ("Blackwater" or the "Blackwater Mine") in central British Columbia, Canada. The Company poured its first gold and silver from the Blackwater Mine on January 29, 2025 and achieved commercial production on May 1, 2025. The Company's common shares are traded on the TSX Venture Exchange ("TSXV") under the symbol "ARTG" and quoted on the OTCQX Best Market under the symbol "ARGTF".

The Company operates a single reportable segment, being the operation and management of the Blackwater Mine. All of the Company's non-current assets are located in Canada.

The Company maintains its head office at 595 Burrard Street, Suite 3083, Vancouver, B.C., Canada. The Company's registered and records office is located at 1133 Melville Street, Suite 3500, Vancouver, B.C., Canada.

Proposed Acquisition of Vista Gold Corp.

On September 20, 2026, the Company entered into a definitive agreement to acquire all of the issued and outstanding shares of Vista Gold Corp. ("Vista Gold"), owner of the Mt Todd gold project in Northern Territory, Australia, pursuant to a court-approved plan of arrangement. Under the terms of the agreement, Vista Gold shareholders will receive 0.0966 common shares of the Company for each Vista Gold common share held. The consideration will be payable entirely in common shares of the Company, with no cash consideration or additional debt incurred. Completion of the transaction is subject to customary closing conditions, including shareholder, court and applicable regulatory approvals.

2. BASIS OF PREPARATION

Basis of preparation and measurement

These unaudited condensed consolidated interim financial statements ("Interim Financial Statements") have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board applicable to the preparation of interim financial statements, including International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34"). They do not include all of the information and notes required by IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") for full annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements as at and for the years ended December 31, 2025 and 2024 ("Annual Financial Statements"). The accounting policies applied in the preparation of these Interim Financial Statements are consistent with those applied and disclosed in the Annual Financial Statements except as disclosed in the section Accounting Standards adopted as of January 1 2026.

These Interim Financial Statements have been prepared on a historical cost basis, except for certain financial instruments which have been measured at fair value. These Interim Financial Statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries. References to "**US$**" are for United States Dollars.

These Interim Financial Statements were approved by the board of directors on November 3, 2026.

Basis of consolidation

These Interim Financial Statements include the accounts of the Company and its wholly-owned subsidiaries, BW Gold Ltd. ("BWG") and 1337890 B.C. Ltd., all of which are domiciled in Canada. All inter-company balances, transactions, income and expenses have been eliminated upon consolidation.

2. BASIS OF PREPARATION (CONTINUED)

Accounting standards adopted as of January 1, 2026

- Amendments to IFRS 9 and IFRS 7, *Amendments to the Classification and Measurement of Financial Instruments* ("Amendments to IFRS 9 and IFRS 7"): In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7 which clarify the date of recognition and derecognition of some financial assets and liabilities with a new exception for some financial liabilities settled through an electronic cash transfer system, clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest criterion, add new disclosures for certain instruments with contractual terms that can change cash flows such as instruments with features linked to the achievement of environment, social and governance targets; and update the disclosures for equity instruments designated at Fair value through other comprehensive income ("FVOCI"). Amendments to IFRS 9 and IFRS 7 are effective for periods beginning on or after January 1, 2026, with early adoption permitted. For financial liabilities settled in cash using an electronic payment system, we applied the election to deem these financial liabilities to be discharged before the settlement date. The amendment has been applied retrospectively with no restatement of comparative information, in accordance with transition requirements on initial application of IFRS 9, and adoption did not have a material impact on our condensed consolidated interim financial statements. The Company has determined the other amendments did not have a material impact.

Accounting standards issued but not yet adopted

- IFRS 18, *Presentation and Disclosure in Financial Statements* ("IFRS 18"): In April 2024, the IASB issued IFRS 18, which will replace IAS 1. IFRS 18 is effective and will be applied retrospectively for periods beginning on or after January 1, 2027, with early adoption permitted. IFRS 18 will require defined categories and subtotals in the statement of income or loss, require disclosure about management-defined performance measures, and adds new principles for aggregation and disaggregation of information. The Company is assessing the impact of this standard on its disclosures. Due to the classification of income and expenses as operating, investing, or financing under IFRS 18, the Company expects changes to its subtotals on the statements of income or loss. The Company is assessing which of its reported performance measures would constitute management-defined performance measures under IFRS 18. The Company continues to assess the impact of IFRS 18 on its disclosures.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The Company's interim results are not necessarily indicative of its results for a full year. The significant accounting policy judgments and areas of estimation uncertainty that applied in the preparation of these Interim Financial Statements are consistent with those applied and disclosed in Notes 4 and 5 of the Annual Financial Statements.

4. INVENTORIES

	September 30, 2026 $	December 31, 2025 $
Stockpiled ore	357,382	166,048
Gold in circuit	1,446	7,329
Finished goods	380	3,601

Balance, September 30, 2026	**1,395,802**	**320,003**	**653,625**	**137,882**	**2,507,312**

Total depreciation recognized during the nine months ended September 30, 2026 and 2025 was $90.6 million and $61.5 million, respectively, of which $37.3 million and $19.5 million, respectively, was expensed in the statements of income during the nine months ended September 30, 2026 and 2025.

6. LEASE LIABILITIES

The Company's lease liabilities primarily relate to the mobile equipment fleet at the Blackwater Mine under the mobile equipment master lease agreement ("MLA"), which bears interest rates ranging from 5.29% to 5.38%. The Company also has lease liabilities relating to its corporate office, which bear interest at a rate of 8.0%.

	For the nine months ended September 30, 2026 $	For the year ended December 31, 2025 $
Opening balance	**143,172**	**132,647**
Additions	45,428	20,130
Lease payments	(24,781)	(20,650)
Lease buyback	(1,066)	-
Interest	5,571	11,045
Closing balance	**168,324**	**143,172**
Less: current portion	(33,013)	(26,537)
Non-current portion	**135,311**	**116,635**

Future scheduled lease payments, comprising principal and interest, are disclosed in Note 16.

7. LONG-TERM DEBT

Senior Unsecured Notes

On February 3, 2026, the Company closed a private placement offering of $450.0 million aggregate principal amount of senior unsecured notes due February 15, 2031 (the "Notes"). The Notes bear interest at the rate of 5.625% per annum, which is payable semi-annually. The Company has the option to redeem all or part of the Notes at any time on or after February 15, 2028. The Notes were issued at par under a trust indenture and are direct senior unsecured obligations of the Company ranking equal with all other present and future senior unsecured indebtedness of the Company.

The proceeds from the senior unsecured notes were used to refinance the amounts outstanding under the RCF and pay transaction costs related to Notes issuance.

The Company incurred $9.7 million in transaction costs, consisting of underwriting, legal, and other financing expenses related to the Notes. This amount had been recorded as a part of the amortized cost of long-term debt and will be amortized over the term of the Notes on an effective interest rate basis. Taking into account the financing costs, the effective interest on the Notes is 6.07%.

Revolving Credit Facility

On September 26, 2025, the Company entered into a credit agreement with a syndicate of lenders for a revolving credit facility (the "RCF") with an aggregate commitment of $700.0 million. On August 21, 2026, the Company amended the RCF to extend its maturity date to August 21, 2030, and revise the applicable interest rate margins and standby fee rates.

7. LONG-TERM DEBT (CONTINUED)

Under the amended agreement, borrowings under the RCF bear variable interest at Term Canadian Overnight Repo Rate Average ("CORRA") plus a margin ranging from 1.875% to 3.00% per annum, determined based on the Company's Net Debt to adjusted EBITDA ratio. A standby fee is payable on the undrawn portion of the facility at rates ranging from 0.422% to 0.675% per annum, based on the same leverage ratio.

As at September 30, 2026, the full $700.0 million committed under the RCF is available for future drawdowns.

Covenants

As at September 30, 2026, the Company was in compliance with its long-term debt covenants.

The following table summarizes the balance of long-term debt for the period-ends presented:

	September 30, 2026 $	December 31, 2025 $
Senior Unsecured Notes	444,570	-
Revolving Credit Facility	-	450,134
Total - Closing balance	**444,570**	**450,134**
Less: Accrued interest payable	(3,190)	-
Closing balance, excluding accrued interest payable	**441,380**	**450,134**

The following table summarizes the changes to long-term debt for the periods presented:

	For the nine months ended September 30, 2026 $	For the year ended December 31, 2025 $
RCF - Opening balance	**450,134**	**-**
Proceeds received on drawdowns	-	458,000

8. ASSET RETIREMENT OBLIGATION

	Carrying amount $
Balance, January 1, 2025	**46,300**
Accretion expense	1,046
Change in obligation estimate	71,345
Balance, December 31, 2025	**118,691**
Accretion expense	1,838
Change in obligation estimate	1,063
Balance, September 30, 2026	**121,592**

As at September 30, 2026 and December 31, 2025, the inflation rate assumption for mine closure activities was 2.19% per annum and for post-closure water management and monitoring activities was 2.00% per annum. The discount rate assumption for mine closure activities was 4.30% per annum (December 31, 2025 - 3.85% per annum) and for post-closure water management and monitoring activities was 4.82% per annum (December 31, 2025 – 4.57% per annum). The Company distinguishes between mine closure and post-closure activities due to the long duration of time of future cash flows related to the post-closure water management and monitoring activities.

As at September 30, 2026, the Company had surety bonds totaling $268.6 million (December 31, 2025 - $224.6 million), which were primarily for reclamation and environmental security.

9. DEFERRED REVENUE (CONTINUED)

a) Silver Stream

The Company entered into a Silver Stream Precious Metals Purchase Agreement (the "Silver Stream") with a streaming company. Under the terms of the Silver Stream:

- The streaming company made upfront deposit payments in cash of US$140.8 million, payable in tranches during the major works construction of the Blackwater Mine, subject to certain conditions;
- The streaming company will purchase 50% of the silver production from the mineral reserves of Blackwater until approximately 18 million ounces of silver have been delivered, after which the stream reduces to 33% of the silver production for the LOM;
- The Silver Stream will be settled by Blackwater delivering silver metal to the streaming company; and
- As silver deliveries are made under the Silver Stream, the streaming company will make payments equal to 18% of the spot silver prices until the upfront deposit payment is reduced to zero, and 22% of the spot silver prices thereafter.

The upfront deposits received are accounted for as deferred revenue with a significant financing component. The upfront deposits have been used by the Company to fund the development and construction of the Blackwater Mine. The deferred revenue is being accreted to reflect the significant financing component at a pre-tax rate of 8%, being the estimated rate implicit to the Silver Stream.

In March 2025, the Company agreed to, and received the deposit for, a simplification of its Silver Stream pursuant to which the streaming company provided an additional stream deposit of US$30.0 million. The Company determined the simplification was a contract modification to the existing Silver Stream for which silver deliveries had not yet commenced and was accounted for as additional deferred revenue related to the original stream. The simplification did not impact the Company's conclusion that the Silver Stream meets the criteria of the 'own use' exemption under IFRS 9, *Financial Instruments* ("IFRS 9") and therefore falls outside the scope of financial instrument accounting.

The Silver Stream Agreement is a subordinated secured obligation of the Company, and its subsidiaries.

The current portion of deferred revenue related to the Silver Stream is based on the forecasted silver ounce production of Blackwater for the next twelve months.

During the three and nine months ended September 30, 2026, the Company recognized $6.1 million and $18.1 million, respectively (three and nine months ended September 30, 2025 - $5.2 million and $10.4 million, respectively) of revenue of which $3.7 million and $10.3 million, respectively, was deferred revenue recognized in relation to deliveries of silver under the Silver Stream (three and nine months ended September 30, 2025 - $3.8 million and $7.7 million, respectively).

9. DEFERRED REVENUE (CONTINUED)

b) Gold Stream and Gold Stream Amendment

As part of the consideration associated with the original acquisition of Blackwater, the Company entered into a gold stream arrangement (the "Gold Stream") with the following attributes:

- The streaming company would receive a percentage of gold production from the Blackwater Mine as follows: 8% until 279,908 refined gold ounces (the "Original Threshold Amount") are delivered to and purchased by the streaming company, then 4% thereafter for the LOM. See below regarding the Amended Threshold Amount; and
- The streaming company will pay a purchase price equal to 35% of the prevailing US$ spot price for the gold ounces received. The 65% discount given will be recorded as an increase to the cost of the asset when incurred as variable consideration for the acquisition.

Subsequently, the Company entered into a separate amendment of the Gold Stream (the "Gold Stream Amendment"). The terms of the Gold Stream Amendment remain largely the same as the Gold Stream, with the main changes being:

- The streaming company made upfront deposit payments in cash of US$40 million, payable in tranches during the major works construction of the Blackwater Mine, subject to certain conditions;
- The Original Threshold Amount is increased to 464,000 refined gold ounces (the "Amended Threshold Amount"), resulting in the Company delivering approximately 92,000 additional gold ounces to the streaming company, starting in 2033 based on the current life of mine plan; and
- The Gold Stream Amendment will be settled by Blackwater delivering gold metal to the streaming company.

The upfront deposit amounts related to the Gold Stream Amendment are accounted for as deferred revenue with a significant financing component, with the related accretion expense being capitalized to mineral property until the Blackwater Mine is operating in a manner intended by management. The proceeds from the Gold Stream Amendment have been used by the Company to fund the development and construction of the Blackwater Mine. The deferred revenue associated with the Gold Stream Amendment is being accreted to reflect the significant financing component at a pre-tax rate of 6.5%, being the estimated rate implicit to the Gold Stream Amendment.

The Company and its subsidiaries have provided security in favour of the streaming company in respect of their obligations under the Gold Stream and Gold Stream Amendment. The streaming company also has a subordinated security interest over substantially all properties and assets of the Company and its subsidiaries and over the mining rights comprising the Blackwater Mine.

As the deliveries of the Amended Threshold Amount are not expected to begin until 2033, the entire amount of the deferred revenue related to the Gold Stream Amendment is recorded as non-current as of September 30, 2026.

10. EQUITY

a) Stock options

The Company may grant stock options to its directors, executive officers, employees and consultants to acquire a maximum number of common shares equal to 10% of the total issued and outstanding common shares of the Company exercisable for a period of up to 10 years from the date of grant, subject to vesting conditions.

The Company uses the Black Scholes option pricing model to determine the fair value of stock options granted. As at September 30, 2026, the Company had the following stock options outstanding and exercisable:

	Number of stock options #	Weighted-average exercise price $
Outstanding – January 1, 2025	**13,632,489**	**5.19**
Granted	1,976,000	23.53
Exercised	(6,079,454)	5.33
Forfeited	(242,382)	9.85
Outstanding – December 31, 2025	**9,286,653**	**8.88**
Granted	39,900	36.73
Exercised	(2,889,070)	5.86
Forfeited	(81,100)	22.76
Outstanding – September 30, 2026	**6,356,383**	**10.25**

The following table summarizes the options outstanding and exercisable at September 30, 2026 and December 31, 2025:

As at September 30, 2026	Total options outstanding			Total options exercisable		
Range of exercise price	**Number**	**Weighted average remaining contractual life (years)**	**Weighted average exercise price**	**Number**	**Weighted average remaining contractual life (years)**	**Weighted average exercise price**
$1.00-$3.00	1,150,000	3.1	$1.18	1,150,000	3.1	$1.18
$3.01-$5.00	1,701,072	1.3	$4.81	1,701,072	1.3	$4.81
$5.01-$7.00	219,488	1.6	$5.57	164,487	1.4	$5.66
$7.01-$9.00	1,523,258	2.4	$7.24	829,679	2.4	$7.24
$9.01+	1,762,565	3.8	$24.60	391,837	3.5	$19.23
	6,356,383	**2.6**	**$10.25**	**4,237,075**	**2.2**	**$5.67**

As at December 31, 2025	Total options outstanding			Total options exercisable		
Range of exercise price	**Number**	**Weighted average remaining contractual life (years)**	**Weighted average exercise price**	**Number**	**Weighted average remaining contractual life (years)**	**Weighted average exercise price**
$1.00-$3.00	1,150,000	3.9	$1.18	1,150,000	3.9	$1.18
$3.01-$5.00	2,391,160	2.1	$4.82	1,438,662	2.1	$4.79
$5.01-$7.00	1,919,989	1.0	$5.43	1,821,654	0.9	$5.42

10. EQUITY (CONTINUED)

a) Stock options (continued)

Share-based payments arising from stock options that were recognized during the three and nine months ended September 30, 2026 totalled $2.3 million and $7.8 million, respectively (three and nine months ended September 30, 2025 - $3.7 million and $7.9 million, respectively) of which $1.3 million and $4.3 million, respectively, was expensed in the consolidated statements of income and comprehensive income (three and nine months ended September 30, 2025 - $1.2 million and $2.7 million, respectively) and the remainder capitalized to mineral property or included in inventory costs.

The following assumptions were used in the valuation of the stock options granted during the three and nine months ended September 30, 2026 and 2025:

	For the three months ended September 30, 2026	For the three months ended September 30, 2025	For the nine months ended September 30, 2026	For the nine months ended September 30, 2025
Annualized volatility	51%	52%	51%	52% - 59%
Expected life (years)	5	5	5	5
Dividend rate	0.00%	0.00%	0.00%	0.00%
Risk-free interest rate	3.01%	3.13%	2.74% - 3.08%	2.60% - 3.13%

The risk-free rate for periods within the contractual term of the option is based on the Bank of Canada administered interest rates in effect at the time of the grant. Expected volatilities were based on the historical volatility of the Company's share price.

b) Restricted Share Units

The Company had previously adopted a cash-settled Share Unit Plan ("Share Unit Plan"). Recipients of Restricted Share Units ("RSUs") issued under the Share Unit Plan will receive a cash settlement in the amount equal to the market price of the RSUs on their vesting dates, with such amounts to be paid within 30 days of the respective vesting dates. The Company later adopted the Omnibus Incentive Plan ("Omnibus Plan"). Once RSUs issued under the Omnibus Plan vest, settlement shall be made by the issuance of one Common Share for each RSU being settled, a cash payment equal to the market price on the vesting date of the RSUs being settled in cash, or a combination of shares and cash, all as determined by the Board in its sole discretion.

During the nine months ended September 30, 2026, the Company granted a total of 145,700 RSUs under the Omnibus Plan to non-independent directors, officers and employees of the Company. Share-based payments arising from RSUs issued under the Omnibus Plan that were recognized during the three and nine months ended September 30, 2026 totalled $1.6 million and $5.1 million, respectively (three and nine months ended September 30, 2025 - $1.6 million and $3.9 million, respectively) of which $1.1 million and $3.3 million, respectively (three and nine months ended September 30, 2025 - $0.6 million and $1.3 million, respectively) was expensed in the consolidated statements of income and comprehensive income and the remainder capitalized to mineral property or included in inventory costs.

10. EQUITY (CONTINUED)

b) Restricted Share Units (continued)

Share-based payments arising from RSUs issued under the Share Unit Plan that were recognized during the three and nine months ended September 30, 2026 totalled $nil and $1.1 million, respectively (three and nine months ended September 30, 2025 - $1.9 million and $4.4 million, respectively) of which $nil and $0.7 million, respectively (three and nine months ended September 30, 2025 – $1.0 million and $2.3 million, respectively) was expensed in the consolidated statements of income and comprehensive income and the remainder capitalized to mineral property or included in inventory costs. During the nine months ended September 30, 2026, the Company settled the last remaining tranche of RSUs issued under the Share Unit Plan, as such, no RSUs issued under the Share Unit Plan remain outstanding as at September 30, 2026.

The Company has 598,446 and 828,460 RSUs outstanding under the Omnibus Plan as of September 30, 2026 and December 31, 2025, respectively. RSUs outstanding under the Share Unit Plan as of September 30, 2026 and December 31, 2025 was nil and 168,526, respectively.

c) Deferred Share Units

Under the Share Unit Plan, deferred share units ("DSUs") may be granted to non-executive directors of the Company from time to time. Vested DSUs issued under the Share Unit Plan are to be settled in a cash amount equal to the market price of the vested DSUs on the date that the person ceases to be a director of the Company, with the settlement to occur within 30 days of the person ceasing to be a director of the Company. Vested DSUs issued under the Omnibus Plan may be redeemed by non-executive directors once they cease to be a director of the Company by providing a redemption notice to the Company specifying the redemption date which will be at least nine months following the date that the person ceased to be a non-executive director, but no later than December 15th of the year following which the person ceased to be a non-executive director. The former non-executive director would be entitled to one common share for each vested DSU under the Omnibus Plan, or a cash payment equal to the market value of such vested DSUs on the redemption date, or a combination of shares and cash, all as determined by the Board in its sole discretion.

During the nine months ended September 30, 2026, the Company granted 12,300 DSUs under the Omnibus Plan. Share-based payments arising from DSUs issued under the Omnibus Plan that were recognized during the three and nine months ended September 30, 2026 totalled $0.1 million and $0.3 million, respectively (three and nine months ended September 30, 2025 - $0.6 million and $1.2 million, respectively), of which the entire amount was expensed in the consolidated statements of income and comprehensive income.

Share-based payments arising from re-measurement of DSUs issued under the Share Unit Plan that were recognized during the three and nine months ended September 30, 2026 totalled $0.5 million and $0.2 million, for the three and nine months ended September 30, 2026, respectively (three and nine months ended September 30, 2025 – expense of $0.6 million and $1.2 million, respectively) of which the entire amount was included in the consolidated statements of income and comprehensive income.

The Company has 65,780 and 53,400 DSUs outstanding under the Omnibus Plan as of September 30, 2026 and December 31, 2025, respectively. The Company has 54,057 and 54,000 DSUs outstanding under the Share Unit Plan as of September 30, 2026 and December 31, 2025, respectively.

10. EQUITY (CONTINUED)

d) Performance Share Units

Under the Omnibus Plan, once performance share units ("PSUs") vest, settlement shall be made by the issuance of one common share for each PSU being settled, a cash payment equal to the market price on the vesting date of the PSUs being settled in cash, or a combination of shares and cash, all as determined by the Board in its sole discretion. For PSUs subject to achievement of a market-based performance condition, the number of units to be issued on the vesting date will vary from 0% to 200% of the number of PSUs granted, depending on the achievement of performance criteria set by the Board of Directors. The PSUs vest at the end of a three-year performance period. The fair value of a PSU is estimated based on the quoted market price of the Company's common shares price at grant date and the number of PSUs estimated to be issued is dependent upon the estimated probability of achieving the performance criteria. For PSUs subject to achievement of a specified non-market-based performance conditions, including completion of construction targets, the number of units to be issued on the vesting date will vary from 40% to 123% of the number of PSUs granted, depending on the achievement of performance criteria set by the Board of Directors. The PSUs vest at the end of a three-year performance period. The fair value of a PSU is estimated based on the quoted market price of the Company's common shares price at grant date and the number of PSUs estimated to vest. At each reporting date, management reassesses the number of awards expected to vest based on the estimated probability of achieving the set performance conditions.

During the nine months ended September 30, 2026, the Company granted 313,300 PSUs under the Omnibus Plan. The Company has 301,329 and nil PSUs outstanding under the Omnibus Plan as of September 30, 2026 and December 31, 2025, respectively.

Share-based payments arising from PSUs issued under the Omnibus Plan that were recognized during the three and nine months ended September 30, 2026 totalled $1.0 million and $2.1 million, respectively (three and nine months ended September 30, 2025 - $nil in each respective period) of which $0.3 million and $0.7 million, respectively (three and nine months ended September 30, 2025 - $nil in each respective period) was expensed in the consolidated statements of income and comprehensive income, respectively.

e) Income per common share

10. EQUITY (CONTINUED)

f) Dividends declared and paid

During the nine months ended September 30, 2026, the Company declared and paid inaugural dividends totalling $11.8 million (nine months ended September 30, 2025 - $nil) to shareholders on the record date of August 19, 2026. In connection with the Company's inaugural dividend, the Company issued dividend equivalent units of 57 DSUs under the Share Unit Plan and 80 DSUs, 1,106 RSUs and 432 PSUs under the Omnibus Incentive Plan. The additional DSUs, RSUs and PSUs are subject to the terms and conditions, including vesting and settlement, of the Share Unit Plan or the Omnibus Incentive Plan, as applicable.

11. REVENUE

The following table summarizes revenue:

	For the three months ended September 30, 2026	For the three months ended September 30, 2025	For the nine months ended September 30, 2026	For the nine months ended September 30, 2025

15. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT COMPENSATION

The Company transacts with key management personnel, who have authority and responsibility to plan, direct and control the activities of the Company and receive compensation for services rendered in that capacity. Amounts paid to related parties were incurred in the normal course of business. Key management consists of the Company's Executive Chair & Director, Chief Executive Officer and Director, President, Chief ESG Officer, Chief Financial Officer and Corporate Secretary, Chief Business Development Officer, and Directors. A portion of key management compensation is capitalized to inventories and mineral property, plant and equipment, depending on the nature of the individuals' responsibilities.

Compensation awarded to key management during the three and nine months ended September 30, 2026 and 2025 was:

	For the three months ended September 30, 2026	For the three months ended September 30, 2025	For the nine months ended September 30, 2026	For the nine months ended September 30, 2025
Salaries and benefits	1,192	806	3,709	2,804
Consulting fees	389	366	1,447	1,568
Director fees	111	67	340	350
Share-based payments	3,436	5,522	10,623	11,028
	5,128	**6,761**	**16,119**	**15,750**

As at September 30, 2026, there were no outstanding amounts payable to key management personnel, other than cash-settled stock-based compensation liabilities and consulting fees of $2.3 million (December 31, 2025 – stock-based compensation liabilities of $6.2 million).

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash and cash equivalents, restricted cash, receivables, derivative assets, marketable securities, accounts payable and accrued liabilities, lease liabilities, and long-term debt.

All financial instruments are initially recorded at fair value and classified as follows: cash and cash equivalents, restricted cash and receivables are classified as financial assets at amortized cost. Accounts payable and accrued liabilities and long-term debt are classified as financial liabilities and are measured at amortized cost. The gold put options, which are derivative financial instruments, are measured at fair value through profit or loss. Marketable securities are measured at FVOCI.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

Financial instrument risk exposure

Credit risk

Credit risk arises from the potential for non-performance by counterparties of contractual financial obligations. The Company's credit risk is primarily attributable to cash and cash equivalents. As at September 30, 2026, the Company has cash on deposit with six large Canadian chartered banks to counteract concentration risk. Management believes the risk of loss with respect to cash and cash equivalents to be remote. The Company does not have a significant receivable balance with respect to its metals sales and stream deliveries.

Liquidity risk

Liquidity risk is the risk that the Company cannot meet its obligations as they fall due. The Company's cash and cash equivalents are held in business accounts which are available on demand.

The Company's remaining undiscounted contractual commitments and obligations (which include future interest payments, as applicable) as at September 30, 2026 were as follows:

	< 1 year $	1-3 years $	4-5 years $	> 5 years $	Total $
Accounts payable, accrued liabilities and provisions	217,587	-	-	-	217,587
Lease liabilities	41,011	91,436	48,223	9,938	190,608
Long-term debt	-	-	450,000	-	450,000
Interest on long-term debt	25,313	50,694	38,073	-	114,080
Financing obligations	4,271	2,442	-	-	6,713
Total	**288,182**	**144,572**	**536,296**	**9,938**	**978,988**

Lease liabilities represent future repayments of principal and interest on the construction and mining fleet leased under the MLA, as well as the corporate office leases. The remaining undrawn amount available under the MLA was $33.7 million as at September 30, 2026. Long-term debt and interest on long-term debt represents financial liabilities related to the senior unsecured notes. Financing obligations represent financial liabilities for Blackwater operations.

Operations and construction commitments of $209.6 million and $557.7 million, respectively, represent purchase commitments for Blackwater operations and construction related to Phase 1A and Expanded Phase 2 ("EP2") growth projects. The Company has asset retirement obligation commitments representing the estimated cost of legal and constructive obligations associated with retiring Blackwater Mine assets, including decommissioning, site restoration, post-closure water management and monitoring activities, undiscounted and unadjusted for inflation. The undiscounted amount of estimated future cash flows required to settle these asset retirement obligations as at September 30, 2026 amounted to $333.3 million.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

Market risk

Market risk is the risk that the fair market value of the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, equity and commodity prices, and currency rates.

i. Interest rate risk

Interest rate risk is the risk that the future cash flows from a financial instrument will fluctuate due to changes in market interest rates. The Company holds its cash in bank accounts that earn variable interest rates. The Company's other current financial assets and current financial liabilities are generally not exposed to interest rate risk because of their short-term nature. Any draw under the Company's RCF and leases of equipment under the Company's MLA are currently at an interest rate benchmarked to CORRA which exposes the Company to interest rate risk. Based on amounts outstanding as at September 30, 2026, a 1% change in interest rates on the Company's cash in bank accounts and amounts outstanding under the MLA would result in a change of approximately $0.1 million in interest incurred on an annualized basis.

ii. Price risk

Mandatory Hedge Program

As required under the terms of the Company's previously outstanding Phase 1 project loan facilities, the Company entered into gold forward sales contracts (the "Mandatory Hedge Program"). The Company has determined the gold forward sales contracts under the Mandatory Hedge Program meet the criteria for the 'own use' exemption under IFRS 9, and as such, they fall outside the scope of financial instrument accounting. During the nine months ended September 30, 2026, the Company delivered 56,827 ounces under the Mandatory Hedge Program. The Company has 111,000 ounces remaining to be delivered in gold forward sales contracts under the Mandatory Hedge Program. These contracts mature as follows at a weighted average price of $2,816 per ounce:

- During the 3 months ending December 31, 2026 – 12,158 ounces
- During the 3 months ending March 31, 2027 – 15,827 ounces
- During the 3 months ending June 30, 2027 – 15,827 ounces
- During the 3 months ending September 30, 2027 – 15,827 ounces
- During the 3 months ending December 31, 2027 – 15,826 ounces
- During the 3 months ending March 31, 2028 – 14,703 ounces
- During the 3 months ending June 30, 2028 – 12,693 ounces
- During the 3 months ending September 30, 2028 – 8,139 ounces

The Company's future cash flow from mining operations is subject to commodity price risk from fluctuations in the market for prices for gold and silver.

Discretionary Hedges

The Company previously entered into gold forward sales contracts for 30,000 ounces of gold, to reduce the risk associated with future fluctuations in the price of gold (the "Discretionary Hedges").

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

Market risk (continued)

ii. Price risk (continued)

Discretionary Hedges (continued)

During the nine months ended September 30, 2026, the Company settled 21,000 ounces of gold forward sales contracts under the Discretionary Hedges, at a weighted average price of $3,350 per ounce. Upon settlement, the associated portion of the derivative liability was derecognized, and the full spot market value of the ounces delivered was recognized in revenue. The cash proceeds received reflected the fixed contractual prices under the respective forward sales agreements. As at September 30, 2026, the Company had fully settled its gold forward sales contracts under the Discretionary Hedges.

For the three and nine months ended September 30, 2026, the Company recorded an unrealized gain of $0.5 million and unrealized loss of $8.1 million, respectively (three and nine months ended September 30, 2025 – losses of $17.6 million and $40.2 million, respectively), primarily due to movements in the Canadian dollar gold forward price curves.

Gold put options

During the nine months ended September 30, 2026, the Company purchased gold put option contracts ("Gold Puts") covering 211,500 ounces of gold at strike prices ranging from $5,300 to $5,500 per ounce, for a total premium of $45.5 million. The Gold Puts were purchased to mitigate gold price risk to operating cash flows during the Phase 1A and EP2 construction periods, both of which the Company intends to fund through operating cash flows. As at September 30, 2026, Gold Puts covering 178,500 ounces remained outstanding, providing downside gold price protection through August 2027. Subsequent to September 30, 2026, the Company purchased additional Gold Puts covering 10,500 ounces at a strike price of $5,500 per ounce, extending downside gold price protection through September 2027.

As at September 30, 2026, the Company recognized a derivative asset of $19.7 million. Based on the Gold Puts outstanding as at September 30, 2026, a 1% change in Canadian-dollar denominated spot gold prices would result in a change of approximately $2.1 million in the Company's derivative asset.

For the three and nine months ended September 30, 2026, the Company recorded a loss of $18.4 million and $25.8 million, respectively (three and nine months ended September 30, 2025 – $nil), primarily driven by valuation adjustments associated with newly executed derivative contracts, changes in implied volatility rates, gold prices and foreign exchange rates.

Marketable securities

As at September 30, 2026, the Company's investment in marketable securities is classified and measured at FVOCI. A 5% change in the applicable market prices would have resulted in a change of $1.4 million in the Company's marketable securities.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

Market risk (continued)

iii. Currency risk

The functional currency of the Company is the Canadian dollar. Currency transaction risk is the risk that fluctuations of the Canadian dollar in relation to other currencies may impact the fair value of financial assets or liabilities. As of September 30, 2026, the Company had US dollar denominated cash deposits of US$18.9 million. There were no other significant financial assets or liabilities subject to currency translation risk.

Fair value

A three-level hierarchy for fair value measurements exists based upon the significance of inputs used in making fair value measurements:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – Inputs for the asset or liability that are not based on observable market data.

As at September 30, 2026, the carrying value of the Company's cash and cash equivalents, restricted cash, receivables, as well as accounts payable approximate their fair values due to their short-term nature. The Gold Puts have an estimated fair value of $19.7 million, based on the spot price for gold denominated in Canadian dollars, the prevailing forward curve, implied volatility and time to maturity. The fair value of the Gold Puts is considered to be a Level 2 fair value measurement in the hierarchy. The fair value of the Company's equity investment in Velocity Minerals Ltd ("VLC") is $9.6 million, which was determined using the period-end share price of VLC. The marketable securities have a fair value of $27.7 million using the period-end quoted market prices of the investments. The carrying amount of the senior unsecured notes approximates fair value. Fair value was determined by discounting the remaining contractual principal and interest payments using the secondary market rates of the Company's senior unsecured notes as at September 30, 2026.

Fair value is based on available public market information or, when such information is not available, estimated using present value or option pricing techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate credit risk.

18. CONTINGENCIES

The Company may become subject to legal proceedings, claims, regulatory investigations and other proceedings in the ordinary course of its business, including the action(s) described below.

On November 20, 2024, Sedgman Canada Ltd. ("Sedgman") filed a claim of lien pursuant to the Builders Lien Act (British Columbia) alleging unpaid amounts due from BWG, a subsidiary of Artemis Gold, in the amount of $88,967,137 (the "Lien") and on December 19, 2024, filed a Notice of Civil Claim in the Supreme Court of British Columbia ("Sedgman Claim") against BWG and Artemis Gold as guarantor, alleging, amongst other claims, breaches of the Engineering, Procurement and Construction Contract. On February 13, 2025, BWG and Artemis Gold filed a Response to Civil Claim and a Counterclaim, opposing all of the claims and allegations made within the Sedgman Claim and Lien, and seeking recovery of losses and damages (the "Counterclaim"), which is based on costs incurred by the Company in excess of $150 million. The losses and damages noted in the Counterclaim were incurred by BWG as a result of Sedgman's breach of Contract, negligence, and intentional and willful misconduct. On April 9, 2025, Sedgman filed its Response to Counterclaim, denying the claims set out in BWG's Counterclaim.

The Company believes the allegations made in the Sedgman Claim are without merit, the Company's Counterclaim is valid and its value significantly exceeds the alleged Sedgman Claim and Lien. Although no assurance can be given with respect to the ultimate outcome of proceedings, the Company does not currently expect that the matter will result in a material net liability and has not recorded any provisions in relation thereto. The Company will continually monitor and re-assess the likelihood and magnitude of any net liability associated with such proceedings.
