### 2. BASIS OF PREPARATION (continued)

#### Basis of consolidation

These Interim Financial Statements include the accounts of the Company and its wholly-owned subsidiaries, BW Gold Ltd. and 1337890 BC Ltd. The Company and its subsidiaries are domiciled in Canada. All inter-company balances, transactions, revenues and expenses have been eliminated upon consolidation.

### 3. USE OF ESTIMATES AND JUDGMENTS

Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable in the circumstances. Uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The Company's interim results are not necessarily indicative of its results for a full year. The significant judgments and areas of estimation uncertainty that applied in the preparation of these Interim Financial Statements are consistent with those applied and disclosed in Note 4 of the Annual Financial Statements.

### 4. INVESTMENT IN VLC (continued)

The Company applies equity accounting to the investment in the common shares of VLC as the Company has significant influence over VLC due to the Company's share ownership and representation on VLC's Board of Directors. As a result, the common shares were initially recognized at cost, with the carrying amount of the investment increasing or decreasing at each reporting period to recognize the Company's share of the profit or loss of VLC for the particular period.

During the period ended September 30, 2022, the Company recognized a non-cash impairment loss of \$9,889,866 due to a significant and prolonged decline in the market share price of VLC. The Company compared the carrying value of the investment in VLC to its estimated recoverable amount, which was determined to be its level 1 fair value due to the observable share prices of VLC on the TSXV at period end.

As at September 30, 2022, the Company held 50,701,138 common shares of VLC (or 32% of VLC's issued and outstanding common shares) with a fair market value of \$8,365,689 (December 31, 2021 - 50,701,138 VLC shares at a fair value of \$15,717,353).

### 12. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, interest receivables, deposits, restricted cash, accounts payable and variable consideration payable. All financial instruments are initially recorded at fair value and designated as follows: cash and cash equivalents, interest receivables and deposits which are included in other assets are classified as financial assets at amortized cost. Accounts payable and variable consideration payable are classified as financial liabilities at amortized cost.

#### Fair value measurements

A three-level hierarchy for fair value measurements exists based upon the significance of inputs used in making fair value measurements:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 – Inputs for the asset or liability that are not based on observable market data.

As at September 30, 2022, the carrying value of the Company's cash and cash equivalents, receivables, as well as accounts payable approximate their fair values due to their short-term nature. The fair value of consideration payable is estimated to be \$35,837,761 (see carrying value in Note 6), which was determined using a discounted cash flow approach with an estimated market interest rate applied. The fair value of the Company's equity investment in VLC is disclosed in Note 4.

Fair value is based on available public market information or, when such information is not available, estimated using present value techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate credit risk.
