### ARTEMIS EXECUTES MASTER LEASE AGREEMENT WITH CATERPILLAR FINANCIAL

*All amounts are stated in Canadian Dollars unless otherwise noted*

(Vancouver, July 28, 2022) – Artemis Gold Inc. (TSX-V: ARTG) (“**Artemis**” or the “**Company**”) is pleased to announce that, further to its previous news release dated May 24, 2022, the Company has executed a Master Lease Agreement for the equipment lease facility (the “**Facility**”) with Caterpillar Financial Services Limited (“**Cat Financial**”) associated with the primary and ancillary mining fleet for the Blackwater Project (“**Blackwater**” or the “**Project**”) in Central British Columbia, Canada.

The Facility with Cat Financial provides for up to \$140 million in equipment financing, with amounts associated with the primary fleet repayable over a six-year period and on terms consistent with the assumptions contained within the Company’s 2021 Feasibility Study technical report entitled “*Blackwater Gold Project NI 43-101 Technical Report on Updated Feasibility Study*” dated September 10, 2021. Utilization of the Facility remains subject to the finalization of the definitive documentation associated with the Company’s project loan facility and deliverables under that agreement, as well as additional customary conditions precedent.

Steven Dean, Chairman and CEO commented, “*The execution of the Master Lease Agreement with Cat Financial represents another important milestone as the Artemis team works to systematically derisk the development of the Blackwater project. This agreement is a step forward in the continuing collaboration between Artemis and Caterpillar. Artemis is preparing to begin major construction activities once the final BC Mines Act Permit is received, targeted in Fall 2022. This Facility provides a further, competitive low-cost source of capital for the development of the Blackwater Project.*”

#### Qualified Person

Jeremy Langford, FAUSIMM, a Qualified Person as defined by National Instrument 43-101, has reviewed and approved the scientific and technical information in this news release.

### **Cautionary Note Regarding Forward-Looking Information**

*This news release contains certain "forward looking statements" and certain "forward-looking information" as defined under applicable Canadian and U.S. securities laws (together, "**forward-looking statements**"). Forward-looking statements can generally be identified by the use of forward-looking terminology such as "may", "will", "expect", "intend", "estimate", "anticipate", "believe", "continue", "plans", "potential" or similar terminology. Forward-looking statements in this news release include, but are not limited to, statements and information related to the plans of the Company regarding the Project and other statements regarding future plans, expectations, guidance, projections, objectives, estimates and forecasts, as well as statements as to management's expectations with respect to such matters.*

*Forward-looking statements and information are not historical facts and are made as of the date of this news release. These forward-looking statements involve numerous risks and uncertainties and actual results may vary. Important factors that may cause actual results to vary include without limitation, risks related to the ability of the Company to accomplish its plans and objectives with respect to the Project within the expected timing or at all; the timing and receipt of certain approvals, changes in commodity and power prices, changes in interest and currency exchange rates, risks inherent in exploration estimates and results, timing and success, inaccurate geological and metallurgical assumptions (including with respect to the size, grade and recoverability of mineral reserves and resources), changes in development or mining plans due to changes in logistical, technical or other factors, unanticipated operational difficulties (including failure of plant, equipment or processes to operate in accordance with specifications, cost escalation, unavailability of materials, equipment and third party contractors, delays in the receipt of government approvals, industrial disturbances or other job action, and unanticipated events related to health, safety and environmental matters), political risk, social unrest, and changes in general economic conditions or conditions in the financial markets. In making the forward-looking statements in this news release, the Company has applied several material assumptions, including without limitation, the assumptions that: (1) market fundamentals will result in sustained mineral demand and prices; (2) the receipt of any necessary approvals and consents in connection with the development of any properties; (3) the availability of financing on suitable terms for the development, construction and continued operation of any mineral properties; and (4) sustained commodity prices such that any properties put into operation remain economically viable. The actual results or performance by the Company could differ materially from those expressed in, or implied by, any forward-looking statements relating to those matters. Accordingly, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on the results of operations or financial condition of the Company. Except as required by law, the Company is under no obligation, and expressly disclaims any obligation, to update, alter or otherwise revise any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.*
